

DATA PROTECTION & PRIVACY STANDARDS

PRIVACY POLICY

Document Reference: AHC-PP-2026

Effective Date: August 22, 2026 (Updated July 21, 2026)

Domains: aravalihomecare.com | aravalihomecare.org

Verified Official Policy & Legal Addendum

CHAPTER 1: PRELIMINARY DATA FOUNDATIONS

1. Definitions and Identity Declarations

§ 1.1 'Company' refers exclusively to Aravali Home Care, operating under the data protection regulations of Rajasthan, India, including its directors, administrative personnel, and system operators.

§ 1.2 'User' or 'Data Subject' refers to any individual or client browsing the website, filling out digital contact panels, booking on-site evaluations, or transmitting architectural information to the Company.

§ 1.3 'Personal Data' means any digital information identifier that relates directly to a living, identifiable person, including contact metrics, financial trails, property maps, and browser coordinates.

2. Scope and Consent Architecture

§ 2.1 Interface Boundary: This Privacy Policy applies strictly to data captured via the official primary web domains (aravalihomecare.com and aravalihomecare.org), integrated customer forms, WhatsApp business lines, and physical on-site registrations.

§ 2.2 Mandatory Alignment: By browsing this website, requesting spatial design quotes, or providing property parameters, the User grants irrevocable, conscious consent to the collection, cryptographic preservation, and processing of their information as mapped out in this document.

§ 2.3 Refusal Protocol: If the User does not consent to these processing rules, they must immediately exit the platform and withhold all telephone communication and personal contact details from our Jaipur desk.

CHAPTER 2: DATA ACQUISITION & PROCESSING PROTOCOLS

3. Categories of Information Collected

The Company explicitly collects, parses, and logs the following user information sets:

§ 3.1 Contact Profiles: Full legal names, alternate phone numbers, verified email channels, physical site addresses, and housing society names located in Jaipur or neighboring zones.

§ 3.2 Structural Specifications: Detailed property measurements, architectural floor plans, old blueprint documentation, photographs of structural dampness, and material finish checklists.

§ 3.3 Financial Metadata: Billing references, transaction timestamps, bank transfer confirmation receipts, and permanent account details required for milestone invoicing.

§ 3.4 Digital Telemetry: Internet Protocol (IP) pathways, browser versions, operating system properties, navigational path trails, and cookie interaction timelines.

4. Methods of Data Harvesting

§ 4.1 Direct Input: Information provided manually by the user via interactive contact forms, online project booking wizards, and direct phone calls to +91 92511 11069.

§ 4.2 On-Site Assessment: Physical details, layout photographs, and surface structural data recorded by our supervisors during design consultations and site visits.

§ 4.3 Automated Logging: Invisible telemetry captured automatically by background scripts and analytical tools as the user navigates web pages.

CHAPTER 3: OPERATIONAL UTILITY & LEGAL BACKGROUNDS

5. Purposes for Processing Personal Data

The Company utilizes the acquired dataset strictly for the following operational workflows:

- ½ To generate accurate architectural cost estimations, itemized painting bills, and custom modular kitchen configurations.
- ½ To coordinate labor dispatch, delivery tracking, and structural engineer site scheduling across Jaipur.
- ½ To manage milestone payment updates, processing alerts, outstanding balance reminders, and legal tax compliance tracking.
- ½ To optimize digital systems, protect server networks from cyberattacks, and analyze web performance trends.
- ½ To communicate structural project updates, customer feedback loops, and promotional design newsletters.

6. Legal Bases for Processing (Indian IT Act Compliance)

- ½ Contractual Necessity: Processing is required to execute project work agreements, fulfill design milestones, and deliver physical renovations.
- ½ Legitimate Business Interest: Processing is required to secure corporate digital property, block website scraping bots, and manage labor schedules efficiently.
- ½ Statutory Obligation: Processing is required to satisfy tax auditing demands, corporate declarations, and financial reporting rules under Indian law.

CHAPTER 4: INFORMATION SECURITY & SHARING CHANNELS

7. Secure Transmission and Storage Practices

- ½ Cryptographic Guardrails: The Company deploys Secure Sockets Layer (SSL) encryption protocols across all web forms to protect customer interaction pipelines.
- ½ Storage Isolation: Physical structural blueprints, private phone logs, and financial records are saved on secure cloud networks with strict password protections.
- ½ Breach Contingency: If a data security incident occurs, the Company will notify affected users and local regulatory bodies in Rajasthan within standard statutory timelines.

8. Restricted Information Sharing and Third Parties

The Company enforces strict limits on sharing data. Your records are only shared with the following entities:

- ½ Logistics Contractors: Trusted raw material shippers, modular kitchen delivery drivers, and painting crews who require your physical address to drop off goods.
- ½ Financial Processors: Regulated banking platforms and payment gateways that process milestone transaction invoices securely.
- ½ Regulatory Bodies: Local police departments or tax agencies if required by a formal court order or official legal request in Jaipur, Rajasthan.
- ½ No Marketing Sales: The Company will never sell, lease, trade, or distribute your email addresses, phone contacts, or home layouts to third-party advertising companies.

CHAPTER 5: USER RIGHTS & COOKIE CONTROLS

9. Data Subject Rights

Users possess clear, actionable legal rights over their personal information records:

- ½ Right of Review: The right to ask the Company for a complete digital copy of all personal contact data and property files stored in our active database.
- ½ Right of Correction: The right to immediately update broken links, outdated phone numbers, or incorrect site address spelling by contacting our team.

Right of Deletion: The right to request that the Company completely delete all personal contact profiles and digital records from its servers, provided the active project has been fully paid for and completed.

10. Digital Cookie Management Framework

Purpose of Tracking: The website uses cookies to map visitor entry routes, remember chosen design styles, and check font loading speeds.

Browser Neutralization: The user can configure their web browser settings to block or delete tracking cookies at any time.

CHAPTER 6: CORPORATE MANAGEMENT & AMENDMENTS

11. Data Storage Timelines

Project Records: The Company stores your property data, final invoice tracking details, and structural files for the entire duration of your craftsmanship warranty period.

General Inquiries: General contact forms and simple design quotes from users who do not proceed to book services are permanently deleted from database logbooks after 180 days.

12. Policy Revisions & Tracking

Unilateral Updates: The Company reserves the right to rewrite, trim, or update this Privacy Policy at any time without issuing a public announcement.

Tracking Changes: The most current version date will always be visible at the top of this page. Continuing to use our website or keeping our design crews active on your property means you accept the revised rules.
